

SpinzCity Administrator Manual

SpinzCity is a web application focused on creating challenges for tennis players to complete, get points and compete between each other.

To enter the administration page, you have to register first and ask the system administrator to give you access as an admin.

Once you get the access, you have to login and go the /admin url. In this case you will go to: <http://spinzcity.com/admin>

The system allows players to register either by FB or email.

Administrator Console

The console for the administrator looks like this:

The screenshot displays the 'Tennis Admin' interface. At the top right, there are links for 'Dashboard' and 'Home'. On the left, a 'NAVIGATION' sidebar lists various sections: Challenges, Levels, Medals, Players, Player challenges, Player challenge progresses, Player medals, and Steps. The main content area is titled 'Site Administration' and features a 'Dashboard' tab. Below this, a table lists system components with their respective record counts and last used status.
